'Intro to First Conscious Contact' ~

Universal Unity ~

Joanna L. Ross

Joanna L. Ross has inspired many from all corners of this planet and Universe in aligning with the infinite Source essence and multi-dimensional aspects of the ascending human into a brilliant 5th dimensional vibrational earth experience. As Gaia and humanity moves into the final phases of this profound planetary ascension, many are now awakening to the soul 'triggers,' that allow us to tap into the celestial and cosmic wisdom and spiritual higher dimensional teams that have been guiding and supporting us for eons.

Join us for this 'first-time' offered 2hr class that will walk you through the exciting energy and alignment for the entanglement with our higher dimensional family and multi-dimensional aspects that can assist and further us on our mastery level unfolding. We will review the main topics of discussion from Joanna's high frequency book '5th Dimensional Consciousness ~ Profound Ways to Awaken Your Potential and Align with Future Contact,' so that you can get better acquainted with the frequency that humanity and Gaia are being prepared for in these upcoming ascension offerings. For many years now, we have been gently and lovingly presented with consciousness awakening alignments on behalf of the agenda and auspices drawn by Source, for the evolution and advancement of humanity and Gaia. We are now entering into the phases in which many will experience the obvious nature of what planetary shifts and human evolution have ignited for us to step up into. It is no longer a question about 'what the bleep' is happening, for we all know it has always been about the design to move humanity into a heightened state of being for greater cosmic entanglement.

For humanity to move from a 3rd dimensional planetary frequency to a 5th dimensional cosmic bedding, there are many preparations at every level that we must move through. Just as the ancient temples prepared initiates with practices and tests of skill and ability with alchemy and discipline, we too have been moving through similar phases of expansion and integration.

We will create a basic over-view with the concepts of ascension, human potential and evolution, and then dive right into the elements of where humanity resonates within the moment of now so that we may ignite the spark within and unfold the necessary attributes for expanding into cosmic awareness.

Tapping into the basics of our multi-dimensional essence, our Source essence, and our natural desire to evolve and ascend, we will gain greater perspective to the next logical movement into our cosmic playground with a myriad of celestial families and friends. This 'Intro' class will review basic topics and discussion points that we must insert within our daily path work, our daily reflection work so that we may allow ourselves the fluidity of the profound shifts ahead for those choosing an expanded and heightened human reality experience.

Topics of discussion beyond the ascension basics over-view;

- [Entanglement, Celestial and Universal Engagement, Higher Self, Soul & Soul Contracts, Alignment with your Celestial First Contact Team/Ascension Team, Multi-dimensional Communication, Lightship Engagement, ET & Celestial Form and Offerings, ET & Celestial Experiences, Lightship Experiences and much more.

We will end our class with an alignment to open into the Universal gateway of infinite wisdom, intelligence, and potential for your continued ascension path work. All of these innate aspects of what we are truly capable of expand upon is within for us to unveil and unleash. Although our paths are unique and varied, the general soul themes and purpose are oftentimes very similar in the collective motive; to remember the spirit within, to remember Source within, to walk in essence of self-love, self-honor, and thus allowing us to experience peace, harmony, and abundance for all.

This class is key for the development and deepening of energetic engagement and entanglement for those that have come to the understanding of their desire to know more about their soul purpose, their connection and link with energy, and the innate knowing that our planet is truly shifting to a new vibrational offering. As these classes offer wisdom from the myriad of higher dimensional Universal beings that Joanna channels, there are often many energetic healings, activations, and shifts that occur within these 'Universal Gatherings.'

We will move with loving intent to entangle with; Gaia, Source, the Higher Self which is the portal to all Universal expansion, our Spirit Guides, our Celestial Teams, and the Universal energies and Arch Angels that Joanna channels, as they each have a role in assisting us to prepare for first conscious contact, and our greater entanglement through the invocation with Source.

What These Classes Can Offer in Resonance ~

This can allow those who so desire, a greater fulfillment within their own blueprint, and the multi-dimensional beings that are swimming within the quantum soup of Creation that have been contracted by our higher aspects to assist us in this phase of our evolution.

For the next level of engagement in a profound multi-dimensional experience, climb aboard for this unique and loving wisdom offering.

Hi Joanna. I am feeling well and feel like I have stepped up so to speak. It feels like I have moved to a new level. I feel more love, more compassion, more expansion, more unshakable, etc. Thank you so much for the session and the support. I am yet working on my morning ritual, extending it to an hour as you suggested. And finding the space in my home to do this in. I feel committed, it feels so important and supportive, it feels so right. Sure, I will consider writing something about my experience. Hope you are doing well...much gratitude and blessings, Cindi

Joanna

I so much thank YOU and SPIRIT for such a lovely and powerful session. Very enlightening in so many profound ways and, it was also very encouraging to hear the messages from my Celestial Team -for their words I am deeply grateful. I felt the energies moving and transforming as you spoke, and a deeper space within me opened up which has allowed me to connect with parts of myself that needed to be loved, accepted and healed. I have listened to the recordings several times since our session, and every time something new "clicks" and so the transformation continues. Thank you for your divine light and love; you are a wonderful gift from the universe!! I hope the above lines are helpful and... I mean every word I said.
Love and light always, Marcía
